Subject: RE: Regional Coordination

All – Most of the agencies included in the regional coordination meetings we began in February also attend weekly coordination meetings focused on BDCP held each Tuesday morning. (I believe that the only exception is NRCS/USDA.) In addition, most of the issues for which we have to date identified a need for federal coordination are related to water, even when not strictly related to BDCP. Finally, many of the attendees at the weekly Tuesday meetings have also been designated to attend the monthly meetings.

In light of all the above, and consistent with a discussion at the BDCP coordination meeting this morning, I propose to discontinue the monthly meetings. If there are any issues or actions that need to be discussed among the federal agencies and are not otherwise on the agenda of the BDCP meetings, please let me know and I would be glad to include them on the weekly meeting agenda for discussion.

I am open to any suggestions in regard to the above.

David Nawi
